

1TRC – SQLGuru.ai

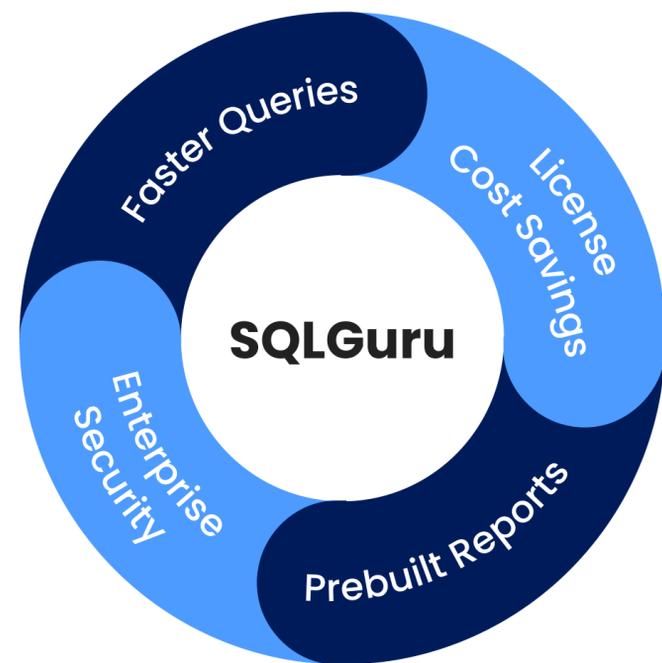

For Oracle Cloud

Overview

Unify reporting, license management, and compliance in one AI-powered platform.

SQLGuru.ai Benefits

- **Access Data Faster** – Direct, secure connectivity to Oracle Cloud ERP for instant insights.
- **Leverage Pre-Built Reporting** – Hundreds of ready-to-use, ERP-specific reports that eliminate manual work.
- **Work Smarter with AI** – AI-assisted SQL accelerates query building and reduces errors.
- **Boost Efficiency & Decisions** – Deliver accurate insights without waiting on IT or long development cycles.

Key Features

AI-Powered SQL Productivity

- Convert natural language into SQL automatically
- Context-aware autocomplete & real-time syntax validation
- High-performance data grid for large datasets

Seamless Oracle ERP Connectivity

- Real-time access to ERP, SCM & HCM pods
- Multi-instance management from a single dashboard
- Intuitive schema explorer
- One-click export to Excel/CSV

Enterprise-Grade Security & Governance

- Single Sign-On (SSO)
- Granular table-level permissions
- 99.9% uptime and enforced enterprise policies

Collaboration & Version Control

- Built-in Git for commits, branching & version history
- Shared queries, dashboards & reports across teams
